[Google Map](#)

Facilities: Pierrepont Pond, also known as Lake Naraneka on some maps, is a small (38 acre) fresh water pond that is part of Seth Low Pierrepont State Park. This is a quiet pond as use is restricted to non-motorized craft. Parking is limited to ~3 cars but the site is usually not heavily trafficked.

Training: CTPC uses this site for small entry level classes in kayak and canoe.

Location: the site is hard to find. Best to follow our directions for the Barlow Mountain Elementary School or a GPS to 115 Barlow Mountain Road, Ridgefield, CT.

The pond is opposite the entrance to the school and the launch site is about 0.2 miles south on Barlow Mountain Road on the left. There is no roadside signage and since the entrance to the launch is obscured by trees it is easily missed in the summer.
